

**Administrative Procedure 7019**

***Courses and Programs: Non-Ministry***

The Board of Education recognizes that not all student needs and interests can be met by provincial curricula, and that local needs and priorities should be reflected in educational services. The district may, therefore, offer locally developed and board/authority authorized courses and programs.

Board/authority authorized courses are offered to meet student needs and interests. They are authorized by the Board of Education according to requirements set by the Ministry of Education. There is no limit to the number of board/authority authorized courses that students may use as part of the 28 credits of electives needed to fulfill the graduation requirements for the Graduation Program 2004.
