Dual Credit academic courses are a great way for youth to transition from high school to post-secondary education. Dual credit courses can be a great way for students to spend a portion of their second semester doing one or two college courses, or jump right in and take a certificate program. Deciding to take advantage of this great opportunity requires planning starting now, so that the required English 12 course is scheduled first semester, and an NIC application is started. Dual credit courses give students both high school graduation credits, just like any elective such as Biology 12, and NIC college credits. **Plus the School District pays the tuition.** Students are required to pay all other costs with a course or program. Parents and students that are interested in learning more about Dual Credit, are invited to an information evening. You can learn more about the following: English 115 and 120, Psychology 130 and 131, Business 162 FIN-110 Drawing & 2-Dimensional Language I, Health Care Assistant program (7 month program), Early Childhood Care & Education Certificate program (10 months) Please confirm attendance by contacting your students Work Experience coordinator at their school.
